

PIGEON FEATHER

FOR ADDITIONAL STAINS IN DIFFERENT
TRANSPARENCY LEVELS, TRY:

TONED STAINS

Accentuate wood's beauty with a combination of penetrating oils and pigments, ideal when a more natural appearance is desired.

SEMI-TRANSPARENT STAINS

Allow the natural grain and texture of the wood to show through while enhancing its appearance with subtle color.

SEMI-SOLID STAINS

Provide color that's a bit more opaque, yet still allow the natural character of the wood to show through.
