

FOR ADDITIONAL STAINS IN DIFFERENT
TRANSPARENCY LEVELS, TRY:

**TRANSLUCENT WOOD
TONED STAINS**

Accentuate the wood's beauty by lightly toning the wood with transoxide pigments, ideal when a more natural appearance is desired.

SEMI-TRANSPARENT STAINS

Allow the natural grain and texture of the wood to show through while enhancing its appearance with subtle color.

SOLID STAINS

These completely opaque, long-lasting colors allow the natural texture of the wood to show through with the maximum level of UV protection.

LOG AND SIDING HIGH BUILD WOOD STAIN AND FINISH

Cedar 41

Natural 42

Butternut 45

Teak 46

Dark Oak 47

For a richer, more finished appearance that allows the natural look of the wood to show through in a luxurious toned satin finish.

NATURAL
AND CEDAR

DISCLAIMER: All colors represented here are affected by age, light, heat and the printing process; therefore, chips in this literature may vary from the actual coating in the container. To achieve clarity and depth of color, some finishes may require multiple coats. Custom colors may be higher in price. Colors will vary depending on the type, age or condition of the wood. Colors are matched under daylight for accuracy. Colors can vary if viewed in different light sources.
