Spray application is 50% of above

@ 70°-77° F, 50% R.H.

This product is certified by Coating Research Group Inc. to meet performance and environmental standards as shown on [www.greenwisepaint.com](http://www.greenwisepaint.com). The addition of VOC-containing colorants may increase the final VOC of a tinted paint. This product meets odor testing standards in order to achieve Green Wise Certification by the Coating Research Group Inc. CRGI Test Method 78.

\*Based upon ASTM D6886 testing. Product meets or exceeds current OTC VOC standards ([www.otc.air.org](http://www.otc.air.org)). VOC testing performed on product formulation prior to application. The product may produce emissions and odors during application, curing and for some time afterwards. Depending upon color choice, non zero VOC colorant added to this product may significantly increase VOC levels.

Interior and exterior architectural coatings for consumer and professional application.

Surface-specific specialty paint and coatings solutions.

Exterior wood care products and stains for every condition.
